There are 52 persons under 21 years of age in the California State prison.

Brigham Young is making arrangements to set out 200,000 fruit trees at Salt Lake.

The Laramie *Sentinel* says the Big Horn expedition has got the hollow horn and is likely to die of it.

A sulphur mine is now worked near Humboldt station, and is attracting the attention of capitalists.

Three rich silver and gold leads have been struck near Ogden. The ore will assay from $100 to $300 per ton.

The [illegible] is to be revived. Orders have been forwarded to Chicago for a press, on the arrival of which, the publication will be resumed.

The Nevada *Transcript* wants the miners and business men of that county to organize a grand prospecting party with a view to develop its resources.

Johnny Taylor rode a race of fifty miles against time over the Carson Course, Nev., last month, riding fifty different horses, and winning in less than two hours.

Somebody writes to the Prescott *Miner* that "Arizona is God's country after all," whereupon the editor of the above paper remarks, "It would be if the devil had the Apaches."

A gentleman from Edina, Missouri, about to establish a woolen factory at some convenient point in Colorado, has been offered a donation of $40,000 by the business men of LaGrange to erect his factory at that place.

Marshall, the discoverer of gold in California, has started on a lecturing tour which will extend throughout the State. He delivered his first lecture in Grass Valley. Old age and poverty force him to this resource.

Messrs. Trutch, Helmcken and Carroll have consented to go to Ottawa as Confederation Delegates, but says the *Colonist*, should they bring back the Terms unaccompanied by a guarantee of Responsible Government they might better have remained at home.

A Montana paper says: "Loon Creek will support about a thousand people this season, and claim owners are afraid that the supply of labor will not be sufficient to supply the demand. Stanley Basin will afford employment to from 70 to 80 men, Deadwood about 25, Robinson's Bar about 60, and Loon Creek, from 400 to 500. Wages will be $6 per day, and provisions will rate at about 14 per cent advance on Idaho City prices."

We have been shown a letter, says the Seattle *Intelligencer*, which has just been received from a miner who is at work on Sultan river, which speaks favorably of the mines. Notwithstanding the rain and snow, the writer states that he is acquainted with two men who took out an ounce a day to the hand for three days in succession. He also says that he can rock easily from one dollar to two dollars and a half a day. There are only fifteen men at work on the river, and prospects have been obtained for a distance of seven miles.

A Corinne correspondent says: "Freight for the North Country is already coming in slowly, and from the way your Montana merchants talk there will be a grand rush of it here presently. The Far West Freight Line is represented here by Creighton & Monroe, and the Diamond R by our old Helenian, Mr. Geo. B. Parker. Each are making preparations to do a large business. The latter is building a large warehouse. Corinne is improving; a great many buildings going up. Notwithstanding the junction question is settled (being located at Bonneville) the Corinnethians think if they can get the freight for Idaho and Montana and keep the mail service for the North at this place, the junction business will not materially affect the city."

Immigrants and Homes

The following is a letter of inquiry addressed to Dr. Poryea, and is submitted by him for publication. We give place for it, as it refers to a matter in which our people feel a deep interest:

SAN FRANCISCO, April 27, 1870.

DR. A. M. L..., Vice President of Oregon Immigrant Board of Statistics and Labor Exchange—*Dear Sir*:—Referring to our conversation on the subject of the inducements offered by the State of Oregon to immigrants, would say that I am desirous to bring the substance of what has been said into definite shape, so as to enable me to form an intelligent judgment as to whether the best interests of those I represent would be served by my deciding to locate them on lands in your State. They are English, Irish, Scotch and German, and for the most part are agriculturists; some are herdsmen and a few are mechanics. There will not be less than five hundred families. They intend to form settlements of their own according to their several nationalities, and want lands adapted to their pursuits. Their means are limited, and on that account the inducements you hold out would have much force in governing my decision. It is the wish of the people to employ their cash in ... [illegible] ... Whilst they are poor in ready money, they are rich in those elements which your State requires, and which ... make a people ... great. They ... have the experience in their various ... strong arms, willing hands and hearts ... with hope.

I am prepared to decide and act so soon as ... [illegible] ... It would be premature for me to attempt to make selections of suitable locations until I know definitely the price of the lands and the terms on which they can be had. Therefore I would ask that as early a reply as is convenient may be given me. Very respectfully,

T. F. ...

In reference to the matter contained in the foregoing letter, ... propositions ... for the sale of five thousand acres of wild land situated somewhere in Western Oregon. Those having lands to offer should give the precise location, price, quality, terms of payment, adaptability to different products and any other particulars that would be of interest.

Silently—tearfully,
Fold his hands pale,
For sternly old Ocean
Has closed over it all,
No dirge but the wild wind
No mourner but the sea,
Deep 'mid its treasures,
His lone sleep shall be.

And long shall the dear ones
Await—but in vain—
The step that will gladden,
Oh never again.
They'll [illegible]
So gentle and gay
[illegible]
Hath still'd it for aye.

Oh! wave of the ocean
What tale must thou tell,
Of all o'er whose slumbers
Thou soundest the knell;
Oh! wave of Life's ocean,
Thy merciless surge,
O'er one we have treasured
Is sounding the dirge.

Silently—tearfully—
Leave him to sleep,
Where coral is gleaming,
And dark sea weeds weep;
Yet know that the spirit—
The deathless, the free!
Bows not to the spoiler,
Rests not in the sea.

THE REJUVENATED SOUTH.—We shall agree with the Mobile *Register* that it is a "marvel to the world" how the South has risen in five years from what was apparently complete prostration to great prosperity, and to promise far greater. Southern credit has been reestablished on a firm basis, and advances are made with a confidence equal to anything that preceded the dark days of 1861. Cotton has mounted his throne, and is again "king"—though no longer of an iniquitous realm. He was a crownless monarch five years ago, and now, we are told, his last year's crop was 2,000,000 commercial bales, or 3,000,000 bales of 400 pounds each, in value equal to $300,000,000. Tuesday's European telegram told us that the dispatches from Calcutta announce that the Earl of Mayo, Governor-General of India, is making a tour of the cotton-growing districts of country, urging upon the people the necessity of the increased cultivation of cotton in order to compete successfully with the United States. The Governor-General has need of great eloquence to overcome such statistics as those we have just presented. Nor is this all. The Mobile *Register* tells us also that Virginia in 1869 sold one hundred thousand tons of her products, while her mines of iron, coal, lead, copper and gypsum "are now, with the aid of northern capital and energy, worked more satisfactorily than ever before;" that South Carolina paid an internal revenue tax of two and a half millions, and a State tax of one million, and greatly reduced her debt; that twenty great railroads are constructing in the two Carolinas, Georgia and Florida, while Delaware, Maryland, West Virginia, Missouri, Arkansas, Texas, Louisiana, Mississippi and Alabama, have about forty new lines under way; that the tobacco crop of last year amounted to 225,000,000 pounds, valued at thirty-seven million dollars, the rice crop 55,000 tierces, being an increase of 20,000 over the preceding year, and the sugar crop 80,000 or 85,000 hogsheads, against 37,647 for 1867.

The outlook for the year to come is brighter yet. Immigration is adding variety and quantity of skilled labor; enfranchisement of the blacks and settlement of political issues is disposing all parties to quiet work and wages; the quantity of land under cultivation is increased day by day; the returns from past ventures are forming capital for new ones. Northern money, enterprise and energy are reinforcing Southern. In brief, the skies are bright for the new South, and the wonders wrought by the war will soon be rivalled in their grandeur and their rapidity of consummation by the marvelous transformations of peace.—*New York Times.*

We are glad to have the testimony of one of the pioneers against the prevalent pernicious notion that in the former times, when the habit of drinking ardent spirits was universal, and when both people and spirits were unsophisticated, they were harmless, and there was no delirium tremens, nor eating out of the coat of the stomach, and men drank regularly and got jolly upon occasions, and lived to a good old age, and died and went where the good drinkers go; and that all the destructive effects which we see from drinking are caused by the rogues who fabricate liquors with chemical ingredients, or who use strychnine in distilling, to increase the yield. This enables a man who ruins himself by drink to put the blame on others, and it encourages all to drink by the promise that if they drink pure liquor no harm will come of it. But Judge William Johnston, in his address before the pioneers of Ohio, a few days ago testified thus against the pure whisky of the first settlers, which they made for their own drinking, and showed that it always produced the same symptoms as now: "But while I apologize for backwoods whisky, I cannot join in the popular idea that it was a very wholesome, harmless thing compared with the modern article of the same name. On the contrary, to my best recollection, it made men's eyes red, and their noses blue, their children ragged, and their wives wretched, just as it does now."

HOW TO "GAMMON" JURIES.—An English judge recently complained that there is no getting juries to find a young and interesting woman guilty of anything, even when guilt is brought home to her without the possibility of a doubt.

Counsel know this well, and instruct a young and interesting woman how to comport herself so as to make an impression upon the jury. The stage directions are believed to be somewhat as follows: Enter the box (or the dock as the case may be) with your veil down. This gives me occasion to tell you to raise your veil and show your face to the jury.

When you do this burst into tears and use your white cambric pocket-handkerchief. Then let the jury see your pretty eyes red with weeping, and your damask cheek blanched with anguish and coursed with bitter tears. When you are hard-pressed by the opposing counsel, begin and grasp the rail as if for support. You will then be accommodated with a scent bottle and a chair, and the jury will think the cross-examining counsel a brute, and you an injured angel.

Observance of these directions by the young and interesting culprit never fails. She will be cleared even if she has murdered her grandmother.

The report that Brig.-Gen. Pope would be sent to San Francisco to take charge of the Department of the Pacific made vacant by the death of Major-Gen. Thomas, is erroneous. Brig.-Gen. Ord is already in that Department, but he is stationed in Arizona, and the Department proper is carried on by Assistant Adjutant-General Whipple at headquarters in San Francisco. There will be no Brigadier-General sent there; either Major-Gen. Meade or Major-Gen. Schofield will be ordered there in a few days. Gen. Meade is stationed at Philadelphia and is well satisfied with his duties. Gen. Schofield commands at St. Louis. He has prepared a plan for the Indian Summer campaign, but as Lieut.-Gen. Sheridan is in St. Louis and Major-Gen. Schofield comes under his direct orders, the probabilities are that the latter will carry out the campaign. If Gen. Schofield is transferred to the Pacific it is understood that the President has determined to wait until the Army bill is disposed of before promoting any one to the rank of Major-General, made vacant by the death of Gen. Thomas.

Representative Sargent has proposed in Congress the coining of a two-dimes piece. Such a coin would be a goodly invention, and would hasten the time when we shall be rid of the so-called "bit"—a thing having no realty and therefore an excellent cover for small swindling. The memory of man still retains a recollection of the "shilling," but even that was a nuisance in its best days, because it meant one thing in New York and another in New England. It was endurable, however, so long as there was a coin answering to the name. But this "bit" to a tradesman meant 20 per cent. and perhaps 50 per cent. margin of profit on his own price already high enough. In these biting times there is no use for the bit.

Four of the five Chinese printers lately arrived at San Francisco, were under an engagement to proceed to New York, where it is said they will train a number of the most intelligent countrymen in the art. They are first-class compositors, educated in an English institution at Hong Kong.

MISCELLANEOUS ITEMS

Negro newsboys have made their appearance in the streets of Cincinnati.

There is a new side wheel steamer upon Lake Ontario that carries the United States flag.

Harper Brothers have received sundry missives adorned with skulls, coffins, etc., threatening dire vengeance unless they take a different course on the Catholic School question in their Weekly.

The Senate Naval Committee favor the recommendation of Secretary Robeson that a bill be reported giving twelve months' pay to the families or heirs of the officers and crew of the *Oneida*, and such a bill will be at once prepared.

The Hon. W. M. Howard stated at the Fifteenth Amendment celebration in Detroit, that when he went to Congress "it required more moral courage to walk boldly to the Halls of Congress and say 'I am a Republican,' and nothing else, than it would to-day to go around here and [illegible]."

D. R. Locke (Nasby) had a son born to him a few days since. He left a number of lecture committees in the lurch, and went home from Illinois to receive in person this accession to his earthly grandeur, excusing himself with the remark that he only had a boy once in eight years, but those committees could find a lecturer anywhere.

An anti-swearing society has been formed in Savannah, Ga., the members of which fine themselves five cents for every oath they swear during the day. At the end of each week the sum total of each member's indulgence is paid over to the treasurer of the society, and at the expiration of a month the joint accumulation is donated to some public charity.

"I think," said Mr. A. Bronson Alcott once in conversation, "that when a man lives on beef he becomes something like an ox; if he eats mutton he begins to look sheepish, and if he eats pork may he not grow to be swinish?" "That may be," said Dr. Walker, of Cambridge, "but when a man lives on nothing but vegetables, I think he's apt to be pretty *small potatoes*!"

A Texas paper says that when Gen. Reynolds received the dispatch announcing the reconstruction of the State, he read it and handed it to a citizen with the remark: "Here, take your State and run it;" and presently added: "I feel as if a great weight had been lifted from me; thank God I am through with the heaviest contract I ever undertook. I have done the best I could. I have a clear conscience. I wish the people of Texas the greatest prosperity."

We heard in a late sermon an anecdote of an old merchant who instructed his clerks: "When a man comes into the store and talks of his honesty, watch him; if he talks of his wealth, don't try to sell him; if he talks of his religion, don't trust him a dollar." It was a smart merchant who said that, and an equally smart minister who knew that it was worth preaching, and was not afraid to say it from his pulpit.

The following extract is from the Agricultural Report for February: "Mr. Hoag, a California silk culturist, states that he has cleared above all expenses $3,500 from the mulberry product of three and a half acres. The labor and other expenses amounted $472. Even last year, a bad one for worms, $796 clear profit was realized per acre, allowing $3 50 per ounce for the eggs, which are always marketable on the ground for cash, European agents seeking them with eagerness. Mr. Hoag thinks Europe will give a steady market for $9,000,000 worth of eggs per year, and that California can monopolize it."

A Frenchman's version of the Temptation and Fall, closes in this way: "Voila mon ami, ar-r-etez vous," say Adam; "stop, que voulez-vous faire? What madness is dees you must not pick ze appel." Ze snake, he take one pinch of snuff, he say, "Ah! Mons. Adam, do you not know there is nossing prohebeet for ze ladies? Madame Iv, permeet me to offer you some of his fruit defendu." Iv, she make one courtsey, ze snake fill her whole parasol wiz appel; he say, "*Eritis sicut Deus.* Mons. Adam he will eat ze appel, he will become like one Dieu, know ze good and ze evil; but you, Madame Iv, cannot become more of a goddess zan you are now." And zis finish Madame Iv.

The Jeffersonian Society of San Francisco is a political organization having in view the advancement of the interests of the Democratic party. Its division in San Francisco held a meeting at the Cosmopolitan Hotel last Wednesday evening, to celebrate the one hundred and twenty-seventh anniversary of the birth of Thomas Jefferson. The following, among the reported proceedings, strikes us as slightly radical: "The Federal Constitution—may the time speedily come when tyrants shall cease to tamper with its provisions, or mar its original purity. [Music, "Hail Columbia."] Responded to by Judge W. D. Sawyer, who spoke for nearly half an hour, during which he referred to the Constitution as it was, and the Constitution as it is. He declared that the Democratic party had always been the friend of the country, and the supporter of the Constitution, and now that the negro had a right to vote, it was the duty of the Democracy to induce them to vote with it, and keep the country on the upward path to glory and greatness." It will be noticed that the Democracy accept the situation.

FINANCE AND COMMERCE.

PORTLAND, Tuesday, May 3, 1870

No gold quotations to-day. Price yesterday was 115¼ at New York.

Portland Legal Tender rates, 85½@86c.

Business continues dull in most departments. In DRY GOODS, trade is particularly quiet, and our dealers have but little more than time on their hands. GROCERIES—there is some life in this line of trade, there being on the market quite a number of orders from Puget Sound and Eastern Oregon. HARDWARE—business rather quiet, though prices are generally stiff. A private telegram from San Francisco, to-day, states that nails have advanced 25c ℔ keg by the invoice and jobbing at 50c advance. We, however, quote as before, dealers generally believing that it is not for their interest to advance rates just at present. We find nothing noteworthy in other lines.

The Produce market exhibits an improved tone, in consequence partly of the firmness prevailing in the San Francisco market. The steady demand for Victoria and Puget Sound, and the trade which has recently begun to the Upper Columbia also give some stimulus to the market. It is now quite certain that the entire surplus of flour, wheat, bacon, oats, etc., of the State can be worked off before harvest, at prices quite as good as, if not better than, the present rates.

The rains which have come opportunely within the last few days, will put the ground again in excellent order for all spring crops, and as they will prevent the caking of the ground, we may look confidently for a wide breadth to be sown, and a bountiful yield.

The steamship *California* sailed at 7 P. M. to-day, for Victoria and Puget Sound ports, carrying about 150 tons produce mostly flour—and 50 tons merchandise. This is a light freight, to be accounted for by the fact that the steamer was telegraphed to return to Portland sooner by several days than had been expected, and as her stay here was brief, dealers at the Sound did not have time to forward their usual orders. The *California* took an unusually large number of passengers, among them Gov. Salomon and the Chicago German representatives.

Republican Platform

Adopted by the Republican Territorial Convention at Vancouver, April 21st, 1870:

Resolved, That the Republicans of Washington Territory [illegible] the Nation [illegible] party which [illegible] Government [illegible] powerful and gigantic rebellion known to history, [illegible] the party that successfully triumphed over the armies of the rebels in the South, that remained faithful [illegible] national credit [illegible] that disgraced us in the eyes of the civilized world, that [illegible] our financial credit beyond the hopes of the most sanguine, that has shown a magnanimity and forbearance to the vanquished that has challenged the admiration of mankind, and that ever true to the best interests of the people, has opened a highway for the interchange of products of the East and West to portions of the continent, [illegible] of the wonders of the age.

Resolved, That we regard the administration of President Grant as eminently successful; that the [illegible] were prosecuted by the [illegible] with sound principles of justice and political economy, and we confidently look for a speedy, harmonious and perfect restoration of the [illegible] relations between all the States and the General Government.

Resolved, That the management of the finances by the Legislative and Executive Branches of the Government by the present Administration, has been wise, prudent and successful; and we refer with pride and pleasure to the fact that our financial [illegible] that the credit of the Government has become restored, and that the relative value of specie and paper currency has approximated to a par [illegible] consistent with the safety of commerce and financial affairs.

Resolved, That the [illegible] position assumed by the Administration in regard to the Alabama claims has already produced the most salutary results, which are evidenced not only by the manifest desire of Great Britain to reopen negotiations but by a willingness to conduct them in conformity with recognized principles of international law.

Resolved, That the National and Territorial Governments should be conducted in all their branches with the most rigid economy, that the necessaries of life should, as far as practicable, be exempt from direct or indirect taxation; and that we are opposed to repudiation in any form, believing that the honor of the nation is of more importance than any pecuniary consideration.

Resolved, That we earnestly urge upon the National Government the speedy settlement of our rights to the San Juan and other Islands lying between the Canal De Haro and Rosario Straits, and the acknowledgement by Great Britain of our just claims thereto, and the importance of opening negotiations for the purpose of securing the annexation of British Columbia to the United States.

Resolved, That the North Pacific Railroad and its branches is a work of national importance, hence we call upon the General Government for the most liberal aid and assistance to secure its early construction and completion.

TO THE UNFORTUNATE.
NEW REMEDIES, NEW REMEDIES!
Dr. Gibbon's Dispensary,
623 KEARNEY STREET, NEAR COMMERCIAL,
San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Disease.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies, see that they are cured for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1868. The only way to avoid imposition is to make inquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases, that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial (Private Entrance on Commercial) San Francisco. Post Office Box 952.

REMEMBER TO PUT BOX 952 ON THE LETTER.

Consultations FREE.

THE WESTERN MONTHLY
FOR 1870.

THE CONDUCTORS OF THE WESTERN MONTHLY have aimed to produce a Magazine which should properly represent the growing Literature of the great Mississippi Valley—hitherto without a representative among the Literary Magazines of the country. Encouraged by the hearty appreciation and support thus far extended by the public, they will spare no pains or expense to insure the future excellence of their magazine, and make it attractive and valuable to all.

The Third Volume of this Periodical begins with the January number. In this number will be commenced a new Serial Story entitled "The Rolling Stone," by George Sand, which will be the greatest work of this great novelist, and one of the most readable stories ever produced.

The Steel Portraits and Biographies of Prominent and Representative Western Men, which have proved so popular and distinctive a feature of the Magazine, will be continued. In addition to the above THE WESTERN will contain articles in Prose and Poetry from an able corps of Regular Contributors, among whom are the best writers in the West.

Terms of the Western:
